

Belsize Road - London

Assael Architecture - Nottinghill Housing Partnership

Project Information

Type of Building: 6 storey new build apartment block
Glazing System: System 1000
Quantity: 22 enclosed balconies
Construction: Adjacent to a busy railway line, acoustic constraints and safety issues resulted in the Windoor system being chosen to form sunspaces. The balcony comprises full height folding opening panes using clear toughened frameless glass. An openable fanlight section provides additional ventilation. An external balustrade provides a safe barrier height of 1100mm. Restrictors comply with special conditions applied due to the building's location.
Completion Date: 2008
