

# St Andrews Crescent - Glasgow

J M Architects - C C G (Scotland) Limited - Southside Housing Association

## Project Information

**Type of Building:** 2 x 5-storey refurbished apartment blocks  
**Glazing System:** Windoor System 1000 Light  
**Quantity:** 72 enclosed balconies and 24 matching walkways  
**Construction:** Single, double and corner inset balconies feature on ground level and floors 2-4. S & E quadrants have a balustrade divided vertically; one side clear and one side opal laminated safety glass. The sliding folding opening upper section has a fanlight & solid aluminium powder coated panel for boiler extraction. N & W quadrants have full height elements in toughened glass to the front and side. Fixed opal laminated panels are in the lower section with clear inward opening glass above. Matching walkways have 3 opening panels in each upper section.

**Completion Date:** 2013
